What Sets Us Apart

Outstanding Results

Dr Mehta has over 20 years of experience. Together with his highly trained Team, he will ensure that you have outstanding results.

Exceptional Customer Service

The journey to having straight teeth, a good bite and an amazing and confident smile is a relationship and we will ensure this partnership is a unique experience.

Individually Tailored Treatment

State of the art 3D computer imaging technology, in addition to Dr Mehta's orthodontic experience, will ensure your treatment plan and aligners are personalised to your individual needs. Your aligners will have the most comfortable fit and provide the best outcome for you.

Dr Atul Mehta

Dr Atul Mehta spent the early years of his life in Kenya before going to Canada to complete his High School and a Science degree at the University of Toronto. He then studied Dentistry at Bristol University in UK and worked in private practice before coming to Australia in 1994. In 1998, Atul graduated as an Orthodontist from the University of Sydney with a degree in Master of Dental Science and has since been practising as a Specialist Orthodontist in private practice.

The team at Mehta Orthodontics have a high level of Clear Aligner experience and will provide you with exceptional service. Dr Mehta recommends Clear Aligners as an alternative to braces as it provides the following benefits:

- Clear - Most people don't notice you are having treatment
- Removable – Aligners can be removed to allow for normal brushing and healthier teeth and gums
- Comfortable – Less risk of chips, breaks or abnormal tooth-wear

Contact the Team for a free consultation with Dr Atul Mehta. You'll have so much to smile about.
